EDUCATION

Boston University – Boston, MA

B.S. in Computer Engineering

Expected May 2026

- Semester Exchange Student – The University of Sydney, Australia (Spring 2025)
- Chapter President & Treasurer – Global Engineering Brigades (Fall 2022 - Spring 2025)
 - Oversaw 50+ active members, raised \$10,000+, and led the Summer '24 Honduras Brigade.
- Teaching Assistant: Introduction to Engineering Design – College of Engineering (Fall 2024)
- Technical Consultant – TAMID Student-Led Consulting Group (Spring & Fall 2024)
- Lab Assistant and Student Leader – Engineering Product Innovation Center (Spring & Fall 2023)

EXPERIENCE

Loora – Tel Aviv, Israel (AI English-learning startup, raised \$12M Series A)

Software Engineering Intern

July 2025 - August 2025

- Developed an end-to-end automated social listening and response tool for Reddit and X using Developer APIs.
- Built the full-stack Flask application with a Python backend and HTML/Tailwind/Chart.js frontend.
- Implemented an AI-powered response workflow to cut engagement response time by over 80%.

Stethy – Sydney, Australia (AI health-automation startup, backed by 500 Global)

Product Design & Business Development Intern

February 2025 - June 2025

- Conducted 15+ user interviews and designed the user interface of a new AI flagship product using Figma.
- Planned and managed a targeted outreach campaign to acquire new clients using Apollo.

Linguana – Tel Aviv, Israel (AI video-localization startup, raised \$8.5M Seed)

Software Engineering & Business Development Intern

May 2024 - July 2024

- Built backend unit tests and input validator functions in Go, improving the maintainability of key modules.
- Optimized the user interface in Vue.js for accessibility, responsiveness, and visual consistency across devices.
- Analyzed CPM rates and other YouTube-related metrics to develop an outreach campaign using HubSpot, resulting in creator partnerships with a combined reach of 2M+ followers.

SKILLS

Programming: Python, C/C++, HTML, CSS, JavaScript, Go, Java, TailwindCSS, MATLAB, and API Integrations.

Consulting: Agile Project Management, Technical Problem-Solving, Client Communication, and Data-Driven Strategy.

Languages: English (Native), Hebrew (Native), and Spanish (Limited Working Proficiency).

Design: Onshape, SolidWorks, Unity, Adobe Suite, and Figma.

HOBBIES

Snowboarding (BU Club Team) | Volleyball (BU Intramural Team) | Visual Art (LaGuardia Arts High School Alumn)
